What is VCT?

VCT (Virtual College of Texas) is a consortium of community and technical colleges in Texas. If the Brazosport College schedule cannot provide the course that you need to continue in your program, we may be able to use VCT to find another college to provide that course. BC students complete the class through the Course Management System used by an instructor at a different college.

Registration and Fees

Once the course is approved by the appropriate Department and Dean, it will be added to the BC schedule with a Reg (registration) number, reserved in the name of the specific student. That student or an appropriate representative will need to come on campus for registration so that the Registrar's Office can ensure the match of the registrant and the reservationist. Fees are due at the same time as any other BC course.

Grades and Transcripts

Grades for VCT courses are posted and transcribed at BC. Due to transmittal time, the grade may be posted at a slightly later period than other BC courses.

Note: Some courses offered through VCT are not approved due to differences in course requirements, content, or instructor credentialing requirements.

Steps for VCT Students

1. Review the student section at www.vct.org.
2. Contact Linda McConnell at (979) 230-3368, or Linda.McConnell@brazosport.edu.
3. Complete the registration process on campus if a VCT course is reserved.
4. Read the course information and syllabus at www.vct.org.

MATH 1314							
College	Course Title / Instructor	Syl	Format	Start Date	End Date	Last Date to Reserve	Spaces Available
Brazosport College	College Algebra Jeffrey Detrick	S	Internet	05/30/2008	08/12/2008	05/29/2008	5

5. The Syllabus is your guide to what you must do during the semester. **Live by it.**
6. Use the Course Information to contact the listed bookstore to purchase the text(s).
7. Use the Course Information or the Syllabus to **contact the instructor** to provide your contact information and testing location.
8. Use the Course Information or the Syllabus to determine how to log on to the instructor's Course Management System or request that information from the instructor.
