Career and Professional Development

Essentials of Word

Microsoft Word is a word processing application used to create letters, reports, and other documents. This basic course will teach you foundational skills such as using toolbars, task panes, document navigation, document styles, editing and formatting text or paragraphs, and other skills essential to proficiency in Microsoft Word.

Location: BC Central/Face-to-Face

Instructor: Juanita Cantu

8774 POFI1024A (03224T) 12 hrs.

TBD

\$125

Introduction To Computer Systems

This basic computer course is an introduction to operating systems, file creation, deletion and data entry. You will learn to create, copy, and delete files using the operating system; enter and edit data and navigate files and folders.

Location: BC Central/Face-to-Face

Instructor: Juanita Cantu

8775 ITSC1006 (03224T) 7 hrs.

TBD

\$79

Certified Pool Operator

The Certified Pool Operator certification course is designed to provide the basic knowledge, techniques and skills required to safely operate a pool or spa. The course follows the NSPF Pool & Spa Operator Handbook (provided) along with local regulatory codes, and is taught by an NSPF certified instructor. Essential calculations, how to carry out and interpret water tests for safe operation of aquatic facilities, state and federal regulations and other important topics will be covered. Pass the open book exam and earn your CPO certification.

Location: Bonnen Central/Face-to-Face

Instructor: David Turnage

8676 CCPO1002 (03224T) 16 hrs.

TBD

Medical Assistant Program

Medical Assistants work in medical clinics and similar settings assisting physicians by performing administrative duties and handling basic clinical tasks. Often, they are the first person a patient may encounter during a medical appointment. Medical Assistants are trained in front office duties, charting, billing procedures, EKG, phlebotomy, vital signs, and other important clinical tasks. The cost of a national certification exam is included in this program.

Prerequisites for Clinical Practicum: At least 18 years of age with a High School Diploma or High School Equivalency (HSE), acceptable criminal background and completion of all state-required immunizations and CPR training.

Program Dates: 6/5/23-3/8/24

NEW! Medical Office Administrative Assistant Program

Medical Office Assistants, also known as Medical Administrative Assistants, are allied health professionals responsible for various administrative tasks. These assistants perform front office functions such as patient scheduling, professionally communicating (with healthcare professionals, patients, and third party payers), handling medical records, and working with patient billing while maintaining compliance with state and federal regulations. These assistants ensure that the business side of the practice operates smoothly to ensure minimal interruption to the physician's function of providing patient care, and are usually not directly involved with patient care like clinical medical assistants.

Program Dates: 6/5-11/8

Location: Sadler/Face-to-Face

Phlebotomy Technician Program

Phlebotomists draw blood from a patient for clinical or medical testing, transfusions or blood donations. Anyone who chooses this field should be comfortable with blood, needles, blood vials and touching people. Students are trained to perform a variety of blood collection methods with an emphasis on safety, quality assurance, patient identification and specimen handling. During the practicum, students will be assigned to work in a clinical facility and receive hands-on training in the field. Prerequisites for Clinical Practicum: At least 18 years of age with a High School Diploma or High School Equivalency (HSE), acceptable criminal background and completion of all state-required immunizations and CPR training.

EKG Technician Program

EKG technicians play a key role in healthcare and have a main duty of testing/monitoring the electrical activity of the heart. Their duties can frequently include measuring vital signs, performing rapid response procedures, operating an EKG machine and interpreting the output, preparing patients for EKG testing, and measuring and identifying heart rhythms. EKG technicians work in hospitals, clinics, cardiac centers, and private practices. Depending on the facility, the environment can be fast-paced and fairly high-pressure, and your schedule may include nights or weekends. Healthcare IT Professional

What is health information technology? Great question! Health information technology is the secure management of health information across computerized systems. Health information technicians work behind the scenes in healthcare facilities to improve patient care through technology. Responsibilities of technicians include obtaining, processing, and recording healthcare data; ensuring information quality and security; installing and administering basic computer systems and networks; and determining hardware and interface problems needing support. Healthcare information technicians work in a variety of healthcare facilities such as hospitals, physicians' offices, home healthcare agencies, nursing homes, and insurance companies. Medical Office Manager

A Medical Office Manager plays a critical role in keeping an office running smoothly. Manager duties vary job to job, but typically include tasks specific to administration, billing, and customer service. Managers oversee day-to-day operations, manage billing/collections and patient insurance needs, update electronic health records, and submit/review insurance claims. Medical office managers are needed in almost every type of healthcare facility, including hospitals, doctors' offices, skilled nursing facilities, home health agencies, and other locations. Medical Scribe Program

Medical scribes are not on the frontlines of healthcare, which is good for those who prefer a little more predictability in their daily routines. They generally work behind the scenes, sometimes from the comfort of their own home, listening to dictations and converting them into written documents. Their duties frequently include listening to physician recordings, interpreting and transcribing dictation into patient history, exam notes, and other documents, reviewing and editing drafts, translating medical abbreviations, and following up with the healthcare provider to ensure that reports are accurate. This program provides a comprehensive overview of the skills you need to be a successful medical scribe. Register and pay at

Nutritional Coach

Healthy habits are hard to develop. Nutritional coaches are an inspiration for those who need help tweaking their diet and/or developing an exercise routine to meet their individual goals. They lead, instruct, and motivate individuals by teaching proper fitness and nutrition habits, observing clients' exercise routines (and tracking their progress), and developing fitness/meal plans based on client's needs and goals. Nutritional coaches work in a variety of facilities such as health clubs, fitness centers, yoga studios, and even client homes. With the right training, you could be the one people turn to when they're ready to make a lifestyle change. Register and pay at

Spanish for Medical Professionals

Are you frustrated by the communication gap that can occur between you and your Spanish-speaking patients? If you answered yes, this Spanish class - designed specifically for healthcare professionals - will help you bridge that gap. You will practice the basic, practical language skills needed to effectively communicate with your Spanish-speaking patients and their families. You will learn the basics of the language, gain an understanding of the culture, and know how to ask the questions crucial to quality healthcare.

Whether you speak some Spanish and need a refresher, or speak no Spanish, you will complete the course with the skills you will need to effectively communicate with your Spanish-speaking patients.

NOTE: Students will also need to order an eBook for under \$15, or the paperback book version (please see book information below). Register and pay at <https://www.ed2go.com/bc>

Career Pathways

Career Pathways

Career Pathways offers students the opportunity to acquire a combination of basic academic skills and industry-specific training at the same time for zero or very little expense. You can train for a career and complete your high school equivalency diploma or improve English language skills at the same time. If you have a high school diploma, you can also benefit from Career Pathways by improving your academic skills while receiving workforce preparation and training. Successful completion of this program may lead to a career and employment opportunities in high-demand occupations.

Additional Benefits to Career Pathways:

- Support in selecting pathway or enrolling in college
- Adult Education provides financial assistance for tuition
- Increased career and/or employment potential

Students complete college courses while improving basic skills (including Math, Reading, Writing, and Texas Success Initiative 2.0 (TSI2) or High School Equivalency (HSE) preparation) at the same time.

Current Career Pathways Training Programs:

- Entrepreneurship
- HVAC
- Electrical
- Welding
- Construction Management

Creating a Successful Business Plan

Turn your business ideas into a solid plan for financing and long-term success. Committing your idea to paper in the form of a business plan not only increases your chances of obtaining financing, but also in keeping your business strategically focused. You will work through all the major components of writing a business plan and emerge with your first draft in hand. And most importantly, you will have completed the first—and most difficult—step on the path to small business success. Register and pay at <https://www.ed2go.com/bc>
